

## Partner with KEMP Technologies

### Enable Your Business • Expand Your Portfolio • Extend Your Reach

GCI offers its Solution Provider community a unique opportunity to leverage high growth technologies and partner with some of the hottest vendors within these segments – KEMP Technologies is one such partner.

#### KEMP Technologies

When you partner with KEMP Technologies, you are getting a partner that solves the **core functionality requirements for load balancers and application delivery controller technology** AND does it at a price point that will enable you to **earn better than average margin and profitability**. KEMP can help you solve your customer's real-world server application delivery needs.

#### All KEMP Load Balancers Feature:

- Layer 4 and Layer 7 Load Balancing and Cookie Persistence
- SSL Offload/SSL Acceleration
- Application Acceleration: HTTP Caching, Compression & IPS Security
- WAF - Web Application Firewall
- Global Server Load Balancing
- Edge Security Pack (Microsoft TMG Replacement)
- Application Health Checking
- Adaptive (Server Resource) Load Balancing
- Content Switching

With over 26,000 worldwide clients, KEMP Technologies is the industry leader in price/performance value for load balancers and application delivery controllers. KEMP clients run the gamut from Fortune 50 companies to small and medium sized businesses, remote enterprise branch offices, managed service providers and education/public sector clients. **Don't forget to ask about Premium Plus Support Services.**
