

Partner with QCT

Pioneering the Shift to Software Defined Infrastructure

GCI's converged distribution and services model offers its Solution Provider community a unique opportunity to leverage high growth technologies and partner with some of the hottest vendors within these segments – QCT is one such offering.

Software Defined Infrastructure

QCT is already a leader in hyperscale data center technology. They've now extended this market leadership into the hyper-converged infrastructure space. This enables efficient and powerful private and hybrid cloud solutions. QCT's solution integrates cutting-edge software defined infrastructure and big data applications with our best-in-class hardware portfolio.

It's a combination that brings seamless interoperability and optimized performance to our customers in the areas of:

- **Desktop Virtualization**
High Density Hardware with Flexible Virtualization Architecture
- **Compute Virtualization**
QCT VMBlock – Hyper-converged solution
- **Storage Virtualization**
Build a modern HyperScale Storage Infrastructure using QCT platforms

Advantages for QCT Customers

QCT (Quanta Cloud Technology) is a global datacenter solution provider extending the power of hyperscale datacenter design in standard and open SKUs to all datacenter customers.

QCT offers a full spectrum of datacenter products and services from engineering, integration and optimization to global supply chain support, all under one roof.

Contact us today to learn more about QCT's new partnership with GCI and their hyper-converged infrastructure for your cloud datacenter solution.

Grow your Business with Quanta Cloud Technology:

- Fortune Global 500 technology engineering & manufacturing co.
- 14 year heritage of leadership within the datacenter hardware space.
- A team of more than 1,000 employees worldwide including engineering, sales & marketing, fulfillment and service.
- A product line that uses standard and open hardware = vendor agnostic platform.
- Delivering benefits that datacenter operators care about
- Providing world class distribution, reseller and support network.
